Valencia, Ca 91355

Dear Linda:

This is a letter of appreciation for a job well done on the recent piping retrofit of the Henry Mayo Newhall Memorial Hospital power plant. As you know this was a large renovation of the power plant with the installation of two new 200 hp steam boilers, a new 400 ton cooling tower and related piping, and relocation of several pumps, water lines, and air compressors.

Linda the pipefitting, welding, and rigging of equipment was performed in a professional manner and the project was completed on schedule greatly do to the excellent communications between your staff and the project manager.

Again thank you for a job well done and in a timely manner.

Bob VanSanford
Project Manager
