

PASADENA WATER AND POWER
POWER SUPPLY BUSINESS UNIT

December 7, 2010

To Whom It May Concern:

I have been a personal friend and business acquaintance of Rick Merante for more than eight (8) years. In his role as a contractor for Pasadena Water and Power's Production Division he has demonstrated that he contains the professional and technical skills needed to support an organization such as ours. His willingness to do whatever it takes to satisfy the customer and his attention to detail are qualities that make Rick one of our contractors of choice. Rick has provided us with quality work through the years and we will continue to call on him for his expertise on installation of power plant utility systems.

Sincerely Yours,

Alvin S. Boyd
Power Production Superintendent
Pasadena Water and Power
